

## Aka-Allegran

Aka-Allegran applies a unique system for materials removal. Integrated diamond abrasive is released while applying abrasive in the form of diamond suspension to Aka-Allegran. The result is high stock removal, long life and perfect planeness.

Aka-Allegran-9 replaces a number of grinding steps, typically P320 to P1200 with one single grinding step.

Aka-Allegran-3 replaces a 3 micron polishing cloth. Its benefits are very short preparation times, very flat samples and retaining soft phases like inclusions in steel

Aka-Allegran-1 replaces the final polishing step resulting in outstanding flatness regardless of how many phases your specimen may contain.

Any material with hardness above 150HV can be prepared using Aka-Allegran.

### Aka-Allegran-9 For materials > 150 HV 15µm - 6 µm

Product No	Product Name	Content	Weight Kg	Price
AK5010	Aka-Allegran-9 Ø 200mm	2 piece	0.20	£78.95
AK5110	Aka-Allegran-9 Ø 250mm	2 piece	0.25	£84.95
AK5210	Aka-Allegran-9 Ø 300mm	2 piece	0.30	£95.95
AK5210	Aka-Allegran-9 Ø 350mm	2 piece	0.50	£137.95

### Aka-Allegran-3 For materials > 150 HV 3µm

Product No	Product Name	Content	Weight Kg	Price
AK5015	Aka-Allegran-3 Ø 200mm	2 piece	0.20	£78.95
AK5115	Aka-Allegran-3 Ø 250mm	2 piece	0.25	£84.95
AK5215	Aka-Allegran-3 Ø 300mm	2 piece	0.35	£95.95
AK5315	Aka-Allegran-3 Ø 350mm	2 piece	0.50	£137.95

### Aka-Allegran-1 For materials > 150 HV 1µm – 0.1 µm

Product No	Product Name	Content	Weight Kg	Price
AK5017	Aka-Allegran-1 Ø 200mm	2 piece	0.20	£78.95
AK5117	Aka-Allegran-1 Ø 250mm	2 piece	0.25	£84.95
AK5217	Aka-Allegran-1 Ø 300mm	2 piece	0.35	£95.95
AK5317	Aka-Allegran-1 Ø 350mm	2 piece	0.50	£137.95
