

Aka – Self Adhesive Polishing Cloths

We have a complete selection of polishing cloths for metallographic sample preparation.

The cloths are self-adhesive and contain a polymer barrier that keeps lubricant and abrasive at the surface where they participate in the removing of material:

- Wide selection, from fine grinding to final polishing
- Resistant to lubricant on water, alcohol and oil basis
- Easy removal, no glue residue

Aka – Polishing Cloths 200mm

Product No	Product Name	Content	Weight Kg	Price
AK4510	Aka – Chemal	5	0.15	£56.95
