

DiaMaxx

Dose one liquid instead of both suspension and lubricant. DiaMaxx is a ready mix of lubricant and suspension, it is permanently stable and thus ensures reproducible results.

Based on our High Concentration Aka+ suspensions and our high removal Aka-Lube, Clear+ we have formulated a combination product which combines quick preparation with ease of use.

Contrary to competing two-in-one diamond suspensions; DiaMaxx is perfectly compatible with any polishing or fine-grinding surface, thus you can work with the usual micron sizes.

All grain sizes in both mono- and polycrystalline diamonds are available as DiaMaxx.

DiaMaxx does not contain any oil and is therefore very easy to clean.

DiaMaxx Poly

Product No	Product Name	Content	Weight Kg	Price
AK301000	DiaMaxx Poly 0.25 µm	500ml	0.55	£70.95
AK302000	DiaMaxx Poly 1 µm	500ml	0.55	£70.95
AK303000	DiaMaxx Poly 3 µm	500ml	0.55	£70.95
AK304000	DiaMaxx Poly 6 µm	500ml	0.55	£70.95
AK305000	DiaMaxx Poly 9 µm	500ml	0.55	£70.95
AK306000	DiaMaxx Poly 15 µm	500ml	0.55	£70.95

DiaMaxx Mono

Product No	Product Name	Content	Weight Kg	Price
AK3220	DiaMaxx Mono 1 µm	500ml	0.55	£49.95
AK3230	DiaMaxx Mono 3 µm	500ml	0.55	£49.95
AK3240	DiaMaxx Mono 6 µm	500ml	0.55	£49.95
AK3250	DiaMaxx Mono 9 µm	500ml	0.55	£49.95
AK3260	DiaMaxx Mono 15 µm	500ml	0.55	£49.95
