

Metallographic grinding polishing machine MoPao®1B

Applications

This grinder polisher is of single plate. It is suitable for pre grinding, grinding and polishing metallographic specimens. Since the machine is speed-adjusted by microprocessor, it can run at a revolution of 0 to 1400rpm, which favors the machine with wide applications. The machine is equipped with cooling system that can cool down the specimen during pre-grinding so as to prevent overheating and damage the metallographic structure. Featuring easy operation and reliable performance, it is an indispensable device for the factories, research institutions and college labs to prepare metallographic specimen.

Technical Parameters

Model	MoPao®1B
Wheel diameter	Φ203mm
Rotational speed	0-1400r/min
Rotational direction	Clockwise or anticlockwise
Emergency stop	YES
Input voltage	AC220V 50Hz 1PH Optional 110V 60HZ 1PH
Wheel quantity	1
Input power	0.75KW
Dimension	595*785*320mm
Net weight	40kg
Package	860*680*440mm
Gross weight	54kg
