CLM50

7 inch color touch panel with easy programming and intuitive operation with three axis precision cutting, which packed with user friendly function such as zeroing, fast positioning and cutting distance setting. Powerful LED illumination makes the observation more easily and electromagnetic lock provides user a safe environment for operation.

TOP TECH

Feature

Intuitive touched panel, easy operation

Intuitive touched panel with high recognition graphics makes operation more easily.

Rotational speed

The cut-off wheel speed can be set up to 5000 rpm. This can easily satisfy all kinds of material cutting with precision parameter setting and cut-off wheel of Top Tech.

The longitudinal movement (X-axis) can be set up to 200mm with feeding cutting.

The horizontal movement (Y-axis) can be set up to 80 mm with serial cutting. The vertical movement (Z-axis) can be set up to 50mm. With the height movement, the consumables can be saved according to the size of cut-off wheel.

Intelligence cut

The feed will adjust automatically to different thickness and hardness materials. When motor is overloaded, the speed will reduce to appropriate value automatically. When the overload of motor reduces, the speed will return to the setting value.

TOP TECH

Method database

A library of 10 different memory methods can be used with different materials and parameters.

Numbering	Name of cut-off wheel	Rotation speed	Feed rate	Cut-off wheel thickness
0	HW21121207	2000	0.05	1.00
1	HW21111208	2000	0.05	1.20
2	HW21221207	2000	0.05	1.00
3		500	0.01	0.10
4		500	0.01	0.10
5		500	0.01	0.10
6		500	0.01	0.10
7		500	0.01	0.10
8		500	0.01	0.10
9		500	0.01	0.10

Choose recipe Close the screen

Serial cutting

With optional horizontal movement set, slices equal thickness or different thickness is possible. Four slices of different thickness can be set.

Laser alignment

Machine is equipped with laser alignment. This will help user define the exact position during the operation.

LED

Cutting chamber which is illuminated by powerful LED makes it easy to observe the cutting process.

Option

Cutting platform

T-slot table (accessory)
Dimension:317*210mm

Horizontal movement set (option)
Size:195*180mm

Vise

Quick clamping vise kit

Quick screw vise

Specification:50mm(W)*30mm(H)

Quick vise kit

Fragile vise
Size:50*28mm(W*D)

Teardrop type vise
Size:∅25mm

Irregular vise
Size:40*25*40mm(W*D*H)

Specification

Model	CLM50	
Vise travel	200mm	
Feeding rate	Manual	0.01~5 mm/sec
	Automatic	0.01~5 mm/sec
Spindle travel	50 mm↑↓	
Motor power	1500W	
Cutting capacity	Φ50 mm	
Cut-off wheel (Dia.xArbor)	φ3"~ φ8" (φ12.7 or φ25.4)	
Flange(Dia)	φ40 & φ60 & φ80	
Cutting mode	Home point return after cutting	
Overload protection	Automatic deceleration when overload	
Rotational speed	500~5000 RPM	
Coolant capacity	External : 50L	
Dimension WxDxH (mm)	850x850x600 mm	
Weight (kg)	166 Kg
