

**RM-1-MET MATERIAL SCIENCE MICROSCOPE**

The Microtec RM-1-MET with its 12V 50w incident illuminator has a field iris diaphragm and an aperture diaphragm, enabling the illumination to be optimally adjusted at all magnifications.

The RM-1MET/T is a robust 12V 50W Halogen reflected and a 6V 30W transmitted light binocular or trinocular microscope with a range of material science objective as well as FN22 eyepieces. A polariser and analyse complete the package
